

New easy to swallow Soft Gels
Bausch & Lomb PreserVision® AREDS
Eye Vitamin and Mineral Supplement: The ONLY clinically proven
effective formula.

RECOMMENDED INTAKE:

Now to get the high levels proven effective in the National Institutes of Health (NIH) Age Related Eye Disease Study (AREDS), you only need to take: 2 soft gels per day - 1 in the morning, 1 in the evening taken with meals.

Now patented, Bausch & Lomb PreserVision® AREDS is the one and only eye vitamin and mineral supplement clinically proven effective in the 10-year National Institutes of Health (NIH) Age Related Eye Disease Study (AREDS). Age-related macular degeneration (AMD) is the leading cause of vision loss and blindness in people over 55. The landmark National Institutes of Health AREDS trial proved that a high potency antioxidant vitamin and mineral supplement was effective in helping to preserve the sight of certain people most at risk*.

Bausch & Lomb PreserVision® AREDS is a high potency antioxidant and mineral supplement with the antioxidant vitamins A, C, E and select minerals in amounts above those in ordinary multivitamins and generally cannot be obtained through diet alone.

Bausch & Lomb PreserVision® AREDS is the #1 recommended eye vitamin and mineral supplement among vitreoretinal eye doctors**.
