- The Osher Magnifier HD is designed to offer more flexibility in viewing delicate instrument tips.
- The design facilitates adjustments of phaco sleeves and I&A handpieces in the operating room.
- The innovative and enhanced design offers a double-hinged magnifier to provide easy positioning of the magnifier in the operating room.
- Facilitates the loading of IOLs into injectors in the operating room.

# E7003 Osher Magnifier HD

## **BAUSCH + LOMB INSTRUMENTS ARE BACKED BY**

**QUALITY** – All instruments are not created equal, nor do they come from the same source. Our extensive line of surgical instruments have been designed by surgeons, and hand-manufactured by skilled craftsmen using select US and German steel alloys and titanium.

**EXPERIENCE** – 140 years of experience designing, supplying and servicing surgical instrumentation! Our Expert Craftsmen average 20 years of experience and complete a 5 year apprenticeship program.

**SUPPORT & SERVICE** – Our Instruments are easy to order thanks to our partnership with Buffalo Supply, Inc. We also have a Full Service Repair Center in St. Louis, MO, USA to help repair your instruments to like-new conditions. We employ a network of Instrument Specialists across America that are available for in-service training & support.

**LIFETIME WARRANTY** – Bausch + Lomb hand held microsurgical instruments are warranted for a lifetime against defects in material and workmanship when used for their intended surgical purpose. Bausch + Lomb will repair or replace, at its option, any surgical instrument found to be defective in materials or workmanship.
